Introducing - Innovation Hub: CIC

What is the Innovation Hub?

- Makerspace that introduces K-8 students and families to STEM, specifically engineering and technology, through the lens of project-based and maker-learning
- Opened Innovation Hub: South Salt Lake in June 2021, and have since hosted nearly 1000 events with thousands of participants. We have an average rating of 4.9/5 stars, and a recommendation rate of 99%
- We're bringing this community makerspace model to the CIC!

What will the Innovation Hub: CIC do?

- Field trips for all 5th graders in Canyons SD
- Tinker Time, an unstructured maker opportunity for community and family
- CTE-aligned summer camp opportunities
- Creative Professional Learning opportunities for educators and administrators

Fifth Grade Field Trips

- 3 - 4 rotations
    - 45 minute makerspace project in the Innovation Hub
    - 20 minute tour of school/program highlight with 25 minute lunch
    - Entrepreneurship or STEM career activity or both, depending on size of school
- Bus costs covered by Canyons School District
